Dear Monroe County School District Board of Education,

As a professional educator with over 20 years of direct interaction within public school systems, I am writing to express my interest in the position of Superintendent of Monroe County School District. Having assumed increasing levels of responsibility in strategic development, grant facilitation, and the practical application of student programs to enhance growth and academic success, I believe I would make a highly valuable addition to your team.

In my former roles as Assistant Superintendent and Superintendent, I have supported staff in effectively implementing systematic approaches to improving instruction, retention, outreach, auditing, and learning for all students. I excel at translating vision into actionable strategies that drive measurable improvements across the district. My leadership has resulted in efficient and well-executed initiatives that positively impact the lives of both students and teachers. Below are some key achievements:

Led a low-performing high school to achieve a significant SAT score improvement, raising the school out of the bottom 5% academically in the state for the first time in five years.

Guided a district middle school, Montessori school, and high school from 9% compliance (40th percentile) to 91% compliance (80th percentile) with the Michigan Department of Education's School Improvement Grant division within one year. As a result, all three schools retained their grants.

Implemented a highly effective 9th Grade Academic Intervention, Mentoring, Monitoring, and Support (AIMMS) program, greatly enhancing student success rates in scholastic achievement and graduation.

Facilitated General Education Degree (GED) students' transition to undergraduate advisement at Wayne State University.

Established the first Ombudsman's Office in the Detroit Public Schools Community District, providing an essential resource for families and staff.

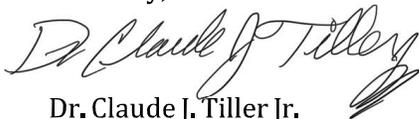

Regarding faculty and staff, I have provided professional growth opportunities that have led to increased effectiveness in instructional programs. Additionally, my fiscal leadership has resulted in the implementation of procurement procedures that significantly reduced operating expenses for an Oakland County school. This financial stewardship transformed years of budget deficits into financial stability.

Most importantly, I have developed a strong ability to plan wisely, execute efficiently, and achieve results that drive effective student outcomes. These are key benefits I would bring to the Monroe County School District. I would be honored and excited to be part of your team.

The enclosed curriculum vitae provides further details regarding my career experiences and accomplishments. I would welcome the opportunity to discuss my qualifications with you in greater depth. Please contact me at (313) 231-2742 or via email at drc tillerjr@gmail.com to schedule a mutually convenient time to meet.

Thank you for your kind consideration of my candidacy.

Sincerely,

Dr. Claude J. Tiller Jr.

"School Improvement Grant Funded Academic Programs: A Quantitative Correlation Analysis Study"

"In 2009 President Barack Obama signed into law the American Recovery and Reinvestment Act (Dragoset, et al., 2017). The Recovery Act served as the financial umbrella which helped to allocate \$3 billion to fund School Improvement Grants to support states and school districts in championing original, innovative programs as well as to hire staff to narrow the academic achievement gap (Dragoset et al., 2017). The problem was the limited research on the extent to which math and reading intervention programs funded by the School Improvement Grant have impacted academic achievement. The purpose of this quantitative correlational analysis study was to determine if a correlation exists between the inclusion of School Improvement Grant funded academic programs and Scholastic Assessment Test scores in math and reading in a large urban school district in a northern U.S. State."

ACADEMIC CALENDAR / CREDITS

American College of Education operates on 5 week terms, 8 terms per year for Master/Bachelor level programs and 10 week terms, 4 terms per year for Doctorate level program/certificates.

Until January 01, 2013, the College operated under the quarter credit system. As of January, 2013 the College began offering semester credit programs and courses to all new incoming students, all re-entering students and all students changing their program. Semester credits for all other students began June 03, 2013. Beginning June 2013, all quarter credits were converted to semester credits. All cumulative totals for students who have attended under both types of credit are expressed in semester credits. All credits on this transcript have been converted to semester credits using this formula: quarter credits were converted to semester credits by dividing the number of quarter credits by 1.5 (for example, 36 quarter credits ÷ 1.5 = 24 semester credits.)
