Demographics

Principal: Laura Lietaert L

Start Date for this Principal: 7/1/2021

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	High School 9-12
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	No
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	<i>[Data Not Available]</i>
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups in orange are below the federal threshold)	Black/African American Students Economically Disadvantaged Students English Language Learners Hispanic Students Students With Disabilities White Students
School Grades History	2018-19: A (63%) 2017-18: A (65%) 2016-17: B (61%) 2015-16: A (62%)
2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	N/A
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Monroe County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Students today, leaders tomorrow! Our Mission at Coral Shores High School is to establish a strong foundation for life-long learning by guiding and challenging all of our students to achieve their maximum potential as responsible citizens.

Provide the school's vision statement.

Students will:

- Understand that learning is the chief priority for the school.
- Be provided a safe and physically comfortable environment to learn.
- Demonstrate proficiency in essential knowledge and skills.
- Be offered multiple pathways to demonstrate proficiency.
- Be actively engaged in problem solving and producing exemplary work.
- Demonstrate belief in the value of community service.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Lietaert, Laura	Principal	<p>The essential function of the position within the organization is to provide the leadership and management necessary at a senior high school to maximize the efforts of teachers and students in an environment which is conducive to educational enhancement, growth and achievement for students. The position is responsible for directing all daily operations of the school campus, supervising and coordinating the work of all professional and classified personnel, ensuring subordinates' adherence to District policies, regulations and goals, preparing required reports, and performing other professional, administrative and supervisory work as required. The position develops and implements programs within organizational policies; and reports major activities to executive level administrators through conferences and reports.</p>
Alvaro, Ana	Assistant Principal	<p>The essential function of the position within the organization is to assist in the overall administration of the assigned senior high school. The position is responsible for supervising assigned professional, paraprofessional, administrative and support personnel and assisting with the planning, implementation and evaluation of all programs and operations essential to the operation of a responsive, effective and efficient instructional environment which provides maximum opportunity for student growth and development. The position develops and implements programs within organizational policies; and reports major activities to executive level administrators through conferences and reports.</p>
Poelma, Jacob	Other	<p>Teacher on Special Assignment</p> <p>The essential function of the position within the organization is to assist in the overall administration of the assigned senior high school. The position is responsible for supervising assigned professional, paraprofessional, administrative and support personnel and assisting with the planning, implementation and evaluation of all programs and operations essential to the operation of a responsive, effective and efficient instructional environment which provides maximum opportunity for student growth and development. Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

According to the raw data, ELA data by grade level and by subgroups reflects an overall decline. Both 9th and 10th grades showed a decline in Level 3 or Above on the FSA. The Algebra and Geometry EOC scores showed a decline among all students who took the assessment. Algebra scores showed the greatest decline. The Biology EOC and the U.S. History EOC showed a decline in achievement, but not as great as ELA or Algebra.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

Math achievement and learning gains demonstrate the greatest need for improvement. ELA and Math achievement in the Lowest 25% is also two of the weakest areas according to the 2019 data.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

A lack of differentiation and scaffolding in Tier 1 instruction impacted the lowest 25% of learners. To improve results CSHS will use district resources, results from progress monitoring three times per year, and provide explicit, differentiated, and scaffolded instruction that targets students learning needs. Targeted instruction will fill the learner's gaps and provide instruction in the prerequisite skills so that they can master the grade level skill.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

School ELA achievement grew from 64% to 65%, ELA learning gains improved from 53% to 54%, Science achievement was maintained at the same level and Social Studies achievement improved to 81%.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Staff changes may attribute to the growth of student achievement. Teachers were able to attend targeted district professional development opportunities where they were taught instructional strategies and best practices that could be immediately applied in their classrooms.

What strategies will need to be implemented in order to accelerate learning?

To accelerate learning reading teachers will be taught strategies that support teaching reading foundational skills in the intensive reading classes which will directly impact the lowest 25%. In math, differentiated instruction at the tier 1 level will increase student achievement in the lowest 25%. After-

school tutoring will also accelerate learning. Social/emotional learning levels and mental health wellness will be identified and students will receive targeted support to increase their well-being. Completion of the 3year Best Practices in Inclusion Education (BPIE) will identify any additional areas of need.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Reading teachers have access to a B.E.S.T. Standards training course in Canvas which provides many strategies for secondary instructional practices. Additionally, all teachers have access to targeted district early release professional development and Professional Learning Communities. All professional development addresses differentiated instruction, providing scaffolds, and giving corrective feedback to students. AVID strategies are also shared with the entire faculty to support student learning and achievement.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Teachers will continue to have access to targeted district professional development, professional learning communities, and to the training of the Florida Math and ELA B.E.S.T. Standards. Training is developed to be delivered in person, virtually, or through Canvas Courses. School-wide AVID strategies, including WICOR, will be shared with the entire faculty at Coral Shores High School this year and for years to come.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Graduation

Area of Focus Description and Rationale: Coral Shores has a significant number of juniors and seniors that need to earn a passing score on FSA/EOC retakes or a concordant score on SAT/ACT.

Measureable Outcome: 100% seniors pass rate
75% junior pass rate

Monitoring: Scores will be checked after each retake opportunity for FSA/SAT/ACT/EOC.

Person responsible for monitoring outcome: Robin Fry (robin.fry@keysschools.com)

Evidence-based Strategy: All English and Reading teachers in grades 9-12 receive professional development in the "Science of Reading." The Science of Reading supports the six components of reading. Additionally, MCSD provides a lesson plan template that supports the integration of all six reading components into daily instructional routines. The B.E.S.T. Foundational Standards in 9-12 reading support the six components of reading instruction. All four types of classroom assessments: screening, progress monitoring/formative assessment, diagnosis, and summative assessment are utilized in all classrooms. Data is used to differentiate instruction and to meet the needs of all learners. All 9-12 reading instruction is designed to meet the needs of all learners and utilizes multisensory instruction, the principles of universal design, cultural awareness, support social-emotional learning, and utilize the WIDA Can Do indicators to support multilingual students. Texts are selected so all students can see themselves in text and the text is presented in print and electronically with audio. Teachers receive ongoing professional development both through their school site and through district professional development. Model classrooms are identified so teachers can observe Florida's Revised Formula for Success, 6 + 4 + T1 +T2 + T3 in action. Additionally, MCSD encourages all teachers to become reading endorsed regardless of content taught or grade level taught.

Rationale for Evidence-based Strategy: Research shows that differentiation, as well as instruction in all six areas of reading, assists teachers in closing student achievement gaps, in this case, specifically in reading and ELA.

Action Steps to Implement

1. Early Release District Professional Development
2. Partnership with District Reading Coordinator
3. Administration walk-throughs
4. After school tutoring

Person Responsible Ana Alvaro (ana.alvaro@keysschools.com)

#2. Culture & Environment specifically relating to Social Emotional Learning

Area of Focus
Description and Rationale: The need to enhance Social Emotional Learning (SEL) efforts became evident through last year's SEL screenings, specifically surrounding emotional regulation, grit, sense of belonging, self-efficacy, and teacher-student relationships.

Measureable Outcome: Based on Panorama screenings, Coral Shores High School will see a 5% points increase in positive school climate for students in positive school climate specifically surrounding emotional regulation, grit, sense of belonging, self-efficacy, and teacher-student relationships as specific targeted areas.

Monitoring:
 -Panorama screener administered twice per year for students and staff; results of the spring 2021 screener will be used to determine the impact of efforts.
 -Artifacts will be collected each month that demonstrate implementation and provide feedback regarding school climate efforts.
 -Progress monitoring will occur monthly; school counselors will enter Tier 2 data and school social workers will enter Tier 3 data into Panorama. The BLPT team will review each month towards goal attainments.

Person responsible for monitoring outcome: Laura Lietaert (laura.lietaert@keysschools.com)

Evidence-based Strategy: Classroom Champions is an evidence-based SEL and mentorship program that will be taught weekly which connects Olympians, Para-Olympians, and professional athletes to classrooms. Purpose Prep is an additional evidence-based SEL program that is taught.

Rationale for Evidence-based Strategy: The curriculum selected is aligned to the deficit areas. The District Action Planning and Problem Solving Team (Multi-tiered Systems of Support Leadership team) vetting many SEL curriculums for alignment and ease of use.

Action Steps to Implement

Assign one of the eight themes for each month of the school year from August through April. The themes are strategically matched with the month and time of year.

Person Responsible: Chris Harris (chris.harris@keysschools.com)

Disseminate a district-wide web-linked newsletter each month defining the theme and include learning activities, teacher challenges, and student challenges throughout the month. These are supported through videos and direct contact from Olympic, Para Olympic, and professional athletes.
 a. The web-linked newsletter will also include resources for parents and school district staff to support the themes at home and professionally.
 b. Classroom teachers and students will complete the activities and challenges, while videos and other Classroom Champion support materials are presented school-wide.
 c. Our PBIS team will link their activities to the monthly themes.

Person Responsible: Pat Meyers (pat.meyers@keysschools.com)

Mental Health support staff will have access to the Classroom Champions platform to access additional materials for students identified as needing additional support through MTSS at Tier 2 and/or Tier 3 level throughout the school year.

Person Responsible Danielle Thomas (danielle.thomas@keysschools.com)

Teachers will teach Classroom Champions weekly. The remaining weeks to provide SEL curriculum (12 weeks) will be created using evidence-based programs such as Purpose Prep, PBIS Words of Wisdom, Overcoming Obstacles, and Stanford Harmony based on the results from the Fall SEL screening,

Person Responsible Danielle Thomas (danielle.thomas@keysschools.com)

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

Coral Shores High School is reported at 3.6 incidents per 100 students. When compared to all other high schools statewide, it falls into the high category. It falls in the very low category for property incidents, it is Ranked #1 in the state and the county. It falls into the low category for violent incidents, it is ranked #1 in the county. It falls into the high category for Drug/Public Order incidents. It is ranked #3 in the county and #397 in the state. The SRO will have a more active presence on campus. Students will need to wait until 10 minutes of a class has started to use a restroom and students cannot use the restrooms during the last ten minutes of any class. Teachers will stand outside their classroom doors during all passing periods. Students will be encouraged to "say something if they see something" and use the anonymous tip line to report any school infractions.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Coral Shores builds relationships within the building and throughout the Upper Keys community that promotes a positive school culture by engaging all stakeholders in supporting an environment where learning, relationships, and high expectations for all students are celebrated and embraced. Coral Shores is a Gold Designated Positive Behavior Intervention Support (PBIS) school. PBIS methods are research-based and proven to significantly reduce the occurrence of problem behaviors in the school, resulting in a more positive school climate and increased academic performance.

Designated Leadership Classes, AVID (Advancement Via Individual Determination) provide instructional focus on leadership and self-determination, public relations, team building, and other group processes which have a positive impact on the school culture.

Coral Shores hosts quarterly “State of the Hurricanes” recognition assemblies to acknowledge and promote academic, community service, and positive behavior, celebrating a culture of high expectation and positive behavior among all students.

Local civic organizations such as Rotary and Kiwanis Clubs support school-sponsored Key Club, and Interact Clubs, promoting school-based initiatives by building trust and relationships between students, local business and civic leadership, promoting service above self and community service.

Local community organizations and businesses recognize the accomplishments of academic, community service, and athletic efforts of senior students by conducting fundraising programs that award millions of dollars in scholarships at the end of the school year.

Our Coral Shores Food Pantry and “Needy Kids” funds assist students and families in need. Funding is provided by local business and community partners to support our most needy students and families.

Our athletic program is underwritten by The Upper Keys Foundation. Students at Coral Shores High School receive funding for their athletic programming, in turn, dedicate their time and talent toward volunteering at Florida Keys area nonprofits. Instead of traditional fundraising initiatives where athletes ‘pay to play’ in athletic programming, athletes, serve to play by engaging in community service that teaches valuable life lessons and helps them do their part in giving back to their community.

Take Stock In Children Inc. (TSIC) is a nonprofit organization, which teams students and school personal by bringing together not only students and school personnel with outside volunteers, philanthropists, religious groups, civic organizations, the social services sector, and for-profit businesses to serve a common goal. Their mission is to engage all facets of the community in breaking the cycle of poverty for low-income, academically qualified students by providing opportunities for a post-secondary education. TSIC offers college scholarships to qualified students and provides local community volunteer mentors to help recipients navigate a path to achieve their educational goals.

The collective efforts of the school, the community, private and nonprofit stakeholders support a positive school culture involving all stakeholders in the process.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Coral Shores staff all participate in promoting a positive culture and environment. Administrators address this during Building Level Planning Team, Faculty Meetings and School Advisory Council. The principal and Athletic Director/Teacher on Special Assignment reach out and meet with community members and organizations weekly. Coral Shores is a Model School for PBIS (Positive Behavior Intervention and Support) and earned a Resiliency Award in 2020-2021. There is a designated teacher for PBIS and a PBIS club has formed to spread activities across campus.

Part V: Budget			
1	III.A.	Areas of Focus: Instructional Practice: Graduation	\$0.00
2	III.A.	Areas of Focus: Culture & Environment: Social Emotional Learning	\$0.00
Total:			\$0.00
