Where do you plan on attending college?

ESSAY RESPONSES

Please answer the following questions in approximately 300 words or less, each on a separate page. Be sure to correctly write the corresponding question number and that your name is clearly displayed. Handwritten responses are acceptable, however typed is preferred.

1. Describe a specific environmental issue or challenge that you are passionate about addressing. How do you plan to use your education to develop solutions or initiatives to tackle this issue?
2. Reflect on a personal experience or observation that deepened your commitment to environmental stewardship. How has this experience shaped your values and aspirations?
3. How do you plan to incorporate principles of sustainability into your chosen field of study or career path? What skills or knowledge do you hope to gain to become an effective advocate for environmental conservation/restoration?
4. In your opinion, what are the biggest obstacles to achieving environmental sustainability on a global scale, and how do you propose overcoming them? What role do you see yourself playing in these efforts?
5. Describe a project or initiative you have been involved in that aimed to promote environmental conservation or sustainability. What were the outcomes, and what lessons did you learn from the experience?
6. Discuss an environmental leader or organization that inspires you and explain why. What strategies or approaches do you admire, and how do you hope to incorporate similar practices into your own work?
