Remember these steps

1) Recognize warning signs and threats

Learn to understand what is a warning sign or threat and where you are likely to find them.

2) Act immediately; take it seriously

Understand strategies to take action and overcome the barriers that may exist to being an “up stander” rather than a “bystander.”

3) Say something to a trusted adult

Learn how to intervene when you see warning signs and threats by telling a trusted adult, and know who those trusted adults are that you can go to for help.

Attention students and teachers! Do you know what Tuesday is? It's Pi Day! Do you know the first 10 decimal places of pi? Do you know the formula for the area or circumference of a circle, or any formula that uses pi? If you do, tell a math teacher or a member of Mu Alpha Theta on Tuesday, 3/14, and you will get a pi tattoo!
