

School Advisory Council

September 15th

6 pm Virtual

Agenda and Minutes

The agenda was adopted for today's meeting.

2020 -2021 SIP

Goals are rolled over

No state testing to collect data

AVID Site team

Organization:

As of right now we are re-establishing organizational strategies that were started in some ways virtually, but are easier to use now that we are face to face.

Middle School -is getting their physical planners this week.

"AVID Hour"- introduced this week in addition to Gold Team to enhance student organization, study skills, SEL, and time to connect with teachers outside of class.

Takes place while the other middle school group is at lunch.

Elementary is re-establishing organizational strategies with the use of planners and binders. We have also started our 1st quarter virtual college tours.

School Safety
