

TAH Lesson Study Debriefing Protocol [Facilitator]

Lesson Study Group: Middle KW

Date: 2/24/11

• The Instructor's Reflections:

The vocabulary was not all appropriate
- too much for lesson

Timing needs to be tightened

Students were uncharacteristic

- tactile nature of the bags elicited
deeper thinking & more complex ideas.

• Presentation and Discussion of Data from the Lesson Study:

Students made predictions based on
materials in bag.

- Lewis & Clark, English, etc.

Students tried to ~~to~~ create understanding
of materials

- Feather represents leadership

Venn Diagram & paragraphs showed
that goals were met.

• General Discussion:

Timing was too loose, the
kinesthetic aspect of the bags was
very positive. Students needed
guiding questions.
