Will vote on this and detailed requirements for selection at the next meeting.
3. Pros/Cons of one lunch shift PROS: Departments meet together and work together more frequently, common planning time, students return on time (less tardiness), teachers use extra 15 minutes for tutorials which help since we have no late bus, guidance has more time to meet with students as they can eat and still see a counselor, teacher love it.
CONS: students didn't have time to eat, however, lines have been clear between 12-12:10 each day.
